PRODUCT & TECHNOLOGY LEADER | AI SYSTEMS & DX

Strategic Product Leader with over 12 years of experience building global AI platforms and developer ecosystems at Amazon, ADP, and as a founder. Expert in leveraging AI to transform the developer journey, reducing development cycles by 90% and defect rates by 70% at scale. Combines executive-level roadmap influence with a "builder-first" mindset to align complex architectural trade-offs with business growth.

PROFESSIONAL EXPERIENCE

Alexa at Amazon | New York | Dec 2021 – May 2026 (4.5 years)

SR. TECHNICAL PRODUCT LEADER, AI PLATFORM

Orchestrated the global AI platform strategy for 600M+ Alexa-enabled devices, aligning 80+ domain and 10+ platform teams on a unified technical roadmap powering billions of weekly API calls and device interactions.

- Platform Execution:** Engineered horizontal prompting and self-reflection systems used across Alexa to automate response quality and safety at scale.
- Architectural Efficiency:** Designed AI systems that reduced compute costs by 68% and improved response accuracy to >95% while meeting strict latency requirements.
- Developer Velocity:** Built AI developer tools and automated evaluation workflows, accelerating feature releases from 5 weeks to <1 week and reducing defects by 70%.
- Ecosystem Growth:** Enabled +70% YoY developer revenue growth by improving quality, discovery, and retention across the Alexa skills ecosystem.

Arquia (shoparquia.com) | New York | Feb 2026 – May 2026 (0.4 years)

CHIEF PRODUCT & GROWTH OFFICER | AI BUILDER

Scaling premium e-commerce infrastructure through autonomous AI agents and technical automation. Projected 4x YoY growth based on Q1 performance.

- DX & Workflow Innovation:** Enabled local dev and live previews with Claude Code on Shopify, accelerating release velocity without sacrificing code integrity.
- Infrastructure Architecture:** Led full-scale Shopify Liquid re-architecture and website redesign to support product scaling, resulting in tripled conversion rates.
- AI Agent Systems:** Architected autonomous Python/Claude agents for predictive inventory and KPI dashboards, automating 80% of core operational reporting.

DataCloud Platform at ADP | New York | Dec 2019 – Dec 2021 (2 years)

LEAD PRODUCT MANAGER, DATA & AI PLATFORM

Led global data and AI platform strategy serving 1.1M clients worldwide, including 80%+ of Fortune 500 companies, representing 1 in 6 U.S. employees.

- Global Platform Expansion:** Deployed DataCloud across 30+ countries, integrating data pipelines and features with global systems to drive +42% YoY revenue growth.
- Product Innovation:** Launched AI-powered analytics and benchmarking products, resulting in YoY +28% net sales growth, +10% engagement, and +200 bps retention.
- Technical Leadership:** Managed a team of 3 PMs, setting roadmap priorities and execution standards.
- Operational Velocity:** Streamlined release and operating cadence, achieving 3x faster time-to-value and 80% reduction in internal coordination overhead.

ITAV Trip, Travel Tech Startup | Barcelona | Jun 2017 – May 2019 (2 years)

CEO, FOUNDER & HEAD OF PRODUCT

Founded travel-tech startup and led an international engineering and design team to launch cross-platform apps with 10k+ users and a full monetization engine.

Airbus | Hamburg | Mar 2012 – Jul 2015 (3.5 years)

PRODUCT MANAGER

Headed technical product for critical aircraft systems within the €15B A350 program, coordinating 5+ international OEMs and developing Python simulations to optimize performance and operations.
